

AN ALLETE COMPANY

SUPERIOR WATER, LIGHT & POWER *Great service. Even better.*

WE'RE CHANGING HOW WE READ METERS

Over the next few years, SWL&P is installing advanced electric, natural gas, and water meters that use proven and secure technology to communicate energy and water usage information.

The new meters:

- Help avoid disruptions to your day and respect your privacy by reducing the need for us to enter your home to read your meter.
- Eliminate the use of estimates of your energy and water usage for billing purposes.
- Give you more control over your energy and water use and your bills.
